

## Blue Striped Earrings

These attractive striped earrings have an exotic, distinctive appeal, and you can make them yourself with **Makin's Clay!**

Designed by **Greensward** Design Team

**Skill Level** - Easy

**Time to Complete** - 1 1/4 hours  
(Does not include drying time)

### Supplies:

#### \* **Makin's Clay - The No Bake Clay**

- No Kneading, conditioning, or baking required!

60g Black clay

60g Blue clay

60g White clay

#### *Recommended Tools:*

- \* **Makin's Brand** Roller
- \* **Makin's Brand** Clay Tool Set
- \* **Makin's Brand** Mat
- \* Craft knife

#### *Other Materials:*

- \* A pair of fish hook earring wires

**1.** Take out about 1/6 of the clay from each 60gm pack, wrap up the remaining clay and place in an airtight container for future use. Using the **Makin's Brand** Mat and Roller, roll out the clay into small rectangles to make 3 separate sheets of Black, Blue and White clay of 0.5~1mm thickness. Repeat this step five times until you have a total of 15 small sheets.

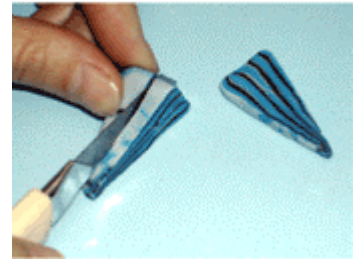

Pile the clay sheets on top of each other, using a different color for each layer to form a 'loaf' made up of random layers. Repeat this process until you've achieved a thickness of 15mm. When viewed sideways, it should appear to be striped.

### Step 1

**2.** Using your fingers, squeeze and reduce one side of the clay 'loaf' into a triangular log with a length of 30mm as shown in picture. Wait around 20 - 30 minutes for it to dry and then lay the 'loaf' flat, and slice sideways to create two triangular slices (3 mm thick) of striped clay.

Step 2

**F**inal. Pierce a hole in the slices using the appropriate tool from the **Makin's Brand** Clay Tool Set, and attach the earring wires to the clay triangle. Hook the circular end of the fish hook wires through the hole in the clay and close the circle with pliers. Allow to dry for 24 hours.

Step 3

*Your new earrings are now ready to wear!*
